

My money priorities

Read the list of items below.

- If you spend money on activities or items not on the list, add them to the spaces marked “other”.
- Cross out the ways of spending that are not important to you.
- Next, place a star next to spending that you feel you don’t control or have no say about.
- Finally go through the list and prioritize your spending by writing a “1” next to the most important spending item, a “2” to the second most important spending item, and so on until the whole list is numbered.
- There is no right or wrong way for the list to be arranged.

Item	Rating
