

Tax clinic preparation

Recommended timeline

Tax clinic preparation can begin at anytime, but if you are preparing for tax filing season (March/April) it is best to start in October if possible. The following is a *recommended* timeline including many potential preparation steps.

Depending on your tax clinic method and your on-site resources, *you may not need to do all of these steps*. However, it is best to get started as soon as possible – especially registering with CVITP online and arranging for CVITP training for your volunteers.
