

Government supports for education savings

Government supports are available to help you save for education. You can receive them by opening a Registered Education Savings Plan (RESP).

The Canada Learning Bond (CLB) is a federal government grant. It is a special grant for children from families with low income. You do not need to put any money into the RESP for your child to receive the Canada Learning Bond. All you have to do is open the account.

The Canada Education Savings
Grant (CESG): When you put money

into your child's RESP, the government of Canada will match a portion of what you put in each year. Children from all family incomes get the basic grant. Children from families with low- to moderate-income get some more money on top of that.

If you live in Saskatchewan or British Columbia, you may be able to get support from the provincial government as well.

Use this worksheet to plan out how to apply for the Canada Learning Bond (CLB).
